R.S.O. 1960, Chapter 23, Section 94 (1) (b)

PROPOSED EQUALIZATION REPORT FOR 1968

COUNTY OF PEEL

Carl J. Madgett, M.I.M.A., C.A.E.
County Assessment Commissioner
168 Kennedy Road, South
BRAMPTON, Ontario

COUNTY OF PEEL ASSESSMENT DEPARTMENT TO THE WARDEN AND MEMBERS OF COUNCIL OF THE CORPORATION OF THE COUNTY OF PEEL

Pursuant to the provisions of Section 94 (1) (b), R.S.O. 1960, which has been approved by the Minister of Municipal Affairs, as County Assessment Commissioner, I submit the following report for equalization for the County of Peel.

The County of Peel Assessment Department has completed the second year under the County Assessment system. During the first year, all records were converted to a Data Processing system. During the second year, a reassessment was carried out in four of the ten municipalities in the County of Peel, using Market Value as the basis. The Assessment Rolls in five municipalities were returned on September 30th to the Clerks of the respective municipalities, and the other five were returned on November 30th. The attached report is the recommended schedule for the equalization of assessment for the County of Peel based on the Assessment Rolls as revised by the Courts of Revision, and including Section 54 of The Assessment Act.

(1)—Summary of assessments showing dollar increases and percentage increases for each municipality.

SCHEDULE A—The classification and percentages of taxable assessments for 1968.

SCHEDULE B—Method of finding equalized assessment based on ratio of assessment to sales value.

SCHEDULE C—The proposed equalization schedule.

The proposed schedule is based on actual sales ratio study of all municipalities for the year October 1st, 1966 to October 1st, 1967.

Since we have completed the assessment of four municipalities on current values, we now have facts that allow us to proceed on a sales ratio analysis for equalization.

As described in a previous progress report to County Council, we have completed four municipalities, namely, Toronto Gore, Albion, Bolton, and Caledon East in 1967 for 1968 taxation. The Assessment Department will be returning Chinguacousy, Caledon, Port Credit, and Streetsville in 1968 for 1969 taxation. The Town of Mississauga is proposed for return in 1969 for 1970 taxation, and the Town of Brampton for return in 1970 for 1971 taxation.

In order to maintain the assessments at near current values in the municipalities that have been reassessed, it may be necessary to make adjustments each year to keep them equitable.

We must continue the in-class training for our Supervisors and staff to provide the best possible results for the Assessment Department in the County of Peel. A continual effort must be made by our department to streamline procedures and methods to execute the work.

The Assessment Department faces an extremely busy time ahead, which we must meet, not only to keep up with the present growth, but to continue the programme of reassessment. For example, as of January 1st, 1966, there were approximately 60,000 units of assessment in the County. As of December 31st, 1967, there were 74,676 units of assessment.

As Assessment Commissioner, I would like to express my appreciation to the County Council, County staff and officials of the municipalities for their continued co-operation in order to accomplish the best results.

All of which is respectfully submitted for your consideration and adoption.

CARL J. MADGETT
County Assessment Commissioner

1968 SUMMARY OF ASSESSMENTS

The total taxable assessment has increased from $283,590,526 to $371,591,259. The population increased from 170,141 to 189,357, or 11.29 per cent.

Approximately $57,650,000 of the increase in assessment was due to the reassessment of four municipalities, namely, Albion, Bolton, Caledon East, and Toronto Gore.

Grants in lieu of taxes were made by the Federal and Provincial Governments, or their agencies to the local municipalities on a valuation of $12,600,832 during the year 1967. This amount has been included in the computation to apportion each municipality's share for the County rates in 1968.

1. We recommend approval for payment accounts totalling $39,553.89.

2. We recommend that minutes of the meeting held June 11, 1968, be confirmed.

Adopted June 20, 1968.

E. S. SIBBALD,
Reporting Member.

E. MARTIN,
Warden.

JUNE REPORT OF THE CHILDREN'S AID BOARD

(as submitted by the Children's Aid Board)

To the Warden and Council of the County of Peel.

Your Children's Aid Board begs to report as follows:

A meeting of the Executive Committee of the Children's Aid Society was held May 15, 1968, with the following present:

From County Council: J. E. Archdekin.

Non-Council Members: B. Deacon, R. Holmes, C. Jenkins, R. Searle.

1. The Executive dealt with revisions made to the Annual Estimates and recommended to the Board that these revisions be accepted.

2. Personnel matters and matters of staff organization were discussed by the Executive.

* * * * * *

A special meeting of the full Board was held May 22, 1968, with the following present:

From County Council: H. M. Allan, J. E. Archdekin, J. J. Berney, N. Horwood, H. McCallion, J. I. McMullin.

Non-Council Members: Mrs. F. Diver, R. Holmes, C. Jenkins, G. Parker, S. Rutherford, R. Searle, D. Westlake.

3. The meeting was especially called to deal with the reductions made in the Estimates by the Province. This was in accordance with an overall approach whereby each of the 52 Children's Aid Societies had been reduced. Along with this, the Province provided a base of financial guidelines. The

Society has been operating on these guidelines for several years and the Board endorsed the Provincial guidelines as good principles of public accountability. The items reduced were of a speculative nature to take effect only after July 1st. Consequently, the Board felt that the Society could accept these reductions and operate without undue damage to our programme.

4. After discussion, the following resolution was unanimously passed: "That we accept the reductions in the Estimates as made by the Province and that we submit the revised Estimates again to the County and to the Minister."

* * * * * *

A meeting of the full Board was held June 12, 1968, with the following present:

From County Council: H. M. Allan, J. E. Archdekin, J. J. Berney, N. Horwood, E. W. Martin, W. J. Newlove.

Non-Council Members: B. Deacon, Mrs F. Diver, G. Gardhouse, R. Holmes, C. Jenkins, G. Parker, S. Rutherford, R. Searle, D. Westlake.

Regrets were received from Deputy-Reeve Hazel McCallion because of another civic meeting.

5. The revised Estimate, based on reductions requested by the Province, was approved. It will now be re-submitted to the County for approval. The amount payable by the County for 1968 under the revised Estimate will be $101,812.00 or 25.7% of the total. This represents a reduction of $11,345.00 from the previously approved amount.

6. The Special Building Committee, along with the Manager, will study and report back to a special Board meeting called for this purpose, a proposal that has been made for the construction of a building in Brampton, a portion of which would be leased back to the Children's Aid Society for their urgent office accommodation needs.

7. Office salary scales were revised, effective July 1st, to conform with the County scales revised in October of last year.

8. The Finance Committee presented the report of expenditures in the first quarter of the year compared to the Estimates. This showed the Society operating very closely within the Budget.

9. The Finance Committee presented a projected Estimate for 1969, with the suggestion that 1969 be a year with only minor changes. Taking into consideration the effect of a whole year operation in 1969 of changes commenced in 1968, plus minor changes in the 1969 operation, would result in an overall increase of approximately 13%.

10. As provided for in the Annual Estimates, boarding home fees were increased as of July 1st, 25¢ per day to $2.25.

11. The Manager was authorized to arrange legal representation in complex cases now coming before the Court.

12. A two-year lease was renewed on the Society's group foster home in Brampton, and the lease was renewed on the Branch Office in Port Credit. Tentative authority was given for renewal of the lease on the interviewing space on Nelson Street. This, however, will not be required if the plans materialize for new offices.

13. A report was received from those attending the Annual Conference of the Ontario Association of Children's Aid Societies in London in May.

14. Meetings during the Summer will be held only at the call of the Chair. Received June 20, 1968.

J. ARCHDEKIN,
Reporting Member.

E. MARTIN,
Warden.

40. All motions must be made in writing, with the names of the mover and seconder (except for going into Committee of the Whole, or a motion to adjourn or to adopt a report), before being read or debated. Motions to adjourn from one session to another must be in writing.

41. All motions shall first be read by the mover without debate, then handed to the Warden for re-reading and action.

42. After the motion has been read by the Warden, chairman or Clerk, it shall be deemed to be in possession of the Council, but may be withdrawn by the mover at any time before decision or amendment, with the permission of the Council.

43. Only two amendments at any one time shall be moved to any motion before the Council, and amendments shall take precedence of original motions, and shall be put in the reverse order in which they are made.

44. In the event of an amendment being made to any motion and an amendment to the amendment, the amendment to the amendment having been declared lost by the Warden or chairman, it shall be in order for another amendment to the amendment to be moved before the amendment to the motion is put, but no other amendment to the amendment shall be in order.

45. Each amendment and motion shall be voted on separately. The defeat of any amendment shall not be equivalent to the carrying of an original motion. Any motion or amendment before being declared carried must receive a majority of the votes of the members present.

46. No subject shall be discussed or voted on during the same session of Council after a vote has been taken thereon, unless by a two-thirds vote of the members present.

47. A motion for adjournment shall always be in order, except: (a) When a member is in possession of the floor; (b) When the yeas and nays are being called; (c) When the members are voting; (d) When the adjournment was the last preceding motion.

49. When a motion to lay on the table prevails, the question so delayed may be called up again on any subsequent day, by motion, as unfinished business.

50. Every motion when seconded must be received and put by the Warden or chairman in Council, except in cases provided for by these rules.

COMMITTEE OF THE WHOLE

51. The rules of the Council shall apply to a Committee of the Whole, except the rule limiting the times of speaking, of taking yeas and nays, and of motions, which need not be in writing. It is the privilege of any member to make a written motion in Committee of the Whole and to require the same to be recorded in the Minutes.

52. In Committee of the Whole, a motion that the Committee rise shall always be in order, and shall take the place of any other motion without debate.

53. Whenever the Council shall go into Committee of the Whole, the Warden or chairman shall leave the chair, and shall, before leaving the same, appoint a chairman to preside, who shall have the same authority in the chair of the Committee as the Warden in the chair of the Council. 54. All amendments made in Committee shall be reported by the chairman before leaving the chair, which will be referred to the Council for concurrence.

55. When a member introduces a bill, petition or motion upon any subject, and the same is referred to a special committee, the member introducing the bill, petition or motion shall be named to the committee.

TAKING THE VOTE

57. Members shall always take their places when a division is called for.

58. Appointments by the Council shall be made by open vote as the Statute directs, and the first person obtaining a majority of the votes cast shall be declared elected.

BY-LAWS

59. Every by-law shall be introduced on the recommendation of an adopted report, or by an order of the Council.

60. Every by-law shall receive three separate readings previous to its being passed, which readings, may take place in one day. (Two of the three readings may be short.)

61. After a by-law has been twice read, it may be committed to a Committee of the Whole, if, however, this be not done, it may at once be read a third time and passed.

62. By-laws committed to a Committee of the Whole shall be read throughout by the Clerk or chairman, and debated by clauses, leaving the preamble and title to be last considered.

63. All amendments made in Committee shall be reported to the Council by the chairman standing in his place. After the report has been received, and the by-law read a third time, it may be subjected to debate and amendment in the Council before the question to pass, sign and seal shall be decided.

64. The Clerk shall note the readings and the time on the back of the by-laws.

65. Every by-law for the purpose of borrowing money and levying the County Rate may only be passed with the votes cast for the affirmative representing at least two-thirds of the total number of votes cast. OCTOBER REPORT OF THE GOOD ROADS COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on Good Roads begs to report as follows:

The regular meeting of the Committee was held on October 8th, 1968 with the following present: Clark, Hunter, Martin and McMullin.

1. The Engineer's report on members of staff to attend the Municipal Employees' Courses in 1969 was considered and approved.

2. The Engineer's report on the need for traffic signals at Sandhill was considered and the recommendations were approved.

Engineer's Report — Intersection at Sandhill

The request for traffic signals at Sandhill was investigated.

A survey of the intersection has been completed and the following were the findings —

1. Traffic is travelling at beyond the existing speed limit of 50 m.p.h.
2. Cars are passing on Airport Road in the area of the intersection.
3. The service station lot on the north-east corner is paved and the edge of pavement is not defined by a curb or white line allowing cars to make right turns to the right of the stop sign.
4. Cars are being parked in no parking areas.

From the traffic counts taken signals are not warranted, but we feel that the following improvements would improve the safety of this intersection —

1. A reduction in maximum speed to 40 m.p.h.
2. A solid white line in this area to prevent passing.
3. The edge of pavement outlined in white to regulate traffic movements.
4. A request to police to enforce "speeding" and "no parking" by-laws.

3. The Engineer's report on excess land on Southdown Road at Fowler Drive was considered and the Engineer was instructed to notify the owners that their offers were not acceptable.

4. We recommend for payment accounts totalling $501,089.72.

5. We are in receipt of a letter from the Credit Valley Conservation Authority requesting the County to preserve the scenic beauty of County

Road 9 through the hamlet of Terra Cotta when proposed improvements are undertaken. We recommend that this be received.

6. We are in receipt of a letter from the Town of Mississauga requesting the installation of traffic signals at Derry Road and Mississauga Road. The Engineer reported that an investigation of this was already underway and a report would be available at the next meeting.

7. We are in receipt of a notice of the first Canadian Urban Transportation Conference to be held in Toronto, February 9 to 12, 1969. We recommend that the Engineer and members of the Good Roads Committee be authorized to attend.

In Committee of the Whole:

Clause 7 was referred back to the Committee for further study.

8. A request from General 2 Committee for additional centre striping on Airport Road was received and the Engineer reported that a double solid white line will be extended north of Norris's gate but it was agreed not to request a decrease in the speed limit.

Your Board of Health begs to report as follows:

The regular monthly meeting of this Board was held November 14, 1968, with the following present: Arch, Byrne, Sibbald, McCulloch, Rawling and McMillan representing Speck.

1. We recommend approval for payment accounts totalling $47,472.01.

3. The following resolution was passed by your Board:
   "Resolved that Peel County Board of Health request County Council to contact the Department of Health to ascertain programmes that are mandatory for District Health Units that have been established."
   We recommend approval of this resolution.
4. The following resolution was passed by your Board:
   "That, from the information this Board has regarding the expansion of Malton Airport as it will affect the health of residents in the County of Peel, we would support the County Council in opposition."
5. We recommend that minutes of the meeting held November 14, 1968, be confirmed.

Adopted November 21, 1968.

E. S. SIBBALD,

E. W. MARTIN,

NOVEMBER REPORT OF THE CHILDREN'S AID BOARD

(as submitted by the Children's Aid Board)

To the Warden and Council of the County of Peel.

Your Children's Aid Board begs to report as follows:

A meeting of the full Board was held November 13, 1968, with the following present:

From County Council: H. M. Allan, J. E. Archdekin, E. W. Martin, H. McCallion, J. I. McMullin.

Non-Council Members: B. Deacon, Mrs. F. Diver, C. Jenkins.

1. Authority was given for the President and Manager to sign a three-year lease for the rental of office space at 118 Queen Street West. This would be used as the main office with two departments of work remaining at the Nelson Street office.

2. The Finance Committee reported on a detailed breakdown of 9 months expenditures compared to the Estimates. This showed the Society operating within the Estimates and with a surplus on the overall. Due to extra children, Child Care costs are running over the Estimate but, due to intensified foster care and special group foster homes the Society is developing, the cost of outside treatment institutions has been very substantially reduced. Also there is a surplus in the staff category and administration which more than equalizes the additional expenditure in Child Care. This will be held to this to the year end and a projection of costs for the remaining part of the year indicates the possibility that the Society would end the year with a small surplus on the overall operations of approximately $4,000.00.

3. The report of the Finance Committee was adopted in respect to the annual review of salary scales. This was a recommendation that for 1969 no revision be made in the current salary scales for social work staff which were revised in 1968. In respect to office staff salary scales, the Committee reported that it was not possible to recommend revision of salary scales to correspond with County scales due to the increment limitation of 5% set down in the "guidelines" from the Province for 1968. The Province is to be advised that this limitation works unfairly to office staff provided we are to continue equating office scales with the County.

4. Minor revisions for purpose of added clarification were made to the written personnel policy.

5. The Manager's report showed continued heavy increase in departments of work but with an interesting decrease in protective referrals for neglect which would indicate that the preventive services of the Society in Family Service are taking effect.

Received November 21, 1968.

J. E. ARCHDEKIN, E. W. MARTIN,
Reporting Member. Warden.

NOVEMBER REPORT OF THE REGIONAL GOVERNMENT REVIEW COMMITTEE

To the Warden and Council of the County of Peel.

Your Committee on Regional Government Review begs to report as follows:

A meeting of the Sub-Committee was held with the Minister of Municipal Affairs in Toronto on October 17, 1968, in the office of the Minister of Education with the following present: Clark, Martin, Speck. Webb, Assistant County Solicitor.

1. The Brief as prepared by the Regional Government Review Committee

was left with the Minister of Municipal Affairs who assured the Committee that his staff would study the Brief and that he would be in touch with the Warden of the County with respect to a future meeting.

2. We recommend that minutes of the meeting held October 17, 1968, be confirmed.

26. The Engineer's report on the method of acquiring land on the Queensway between Highway 10 and Dixie Road was considered and approved. It is also recommended that all municipalities consider this manner of acquiring right-of-ways when a new road is planned through their area.

Engineer's Report—Method of Acquiring Land

Before reporting on the method of acquiring land on that part of the Queensway not assumed by the County, I would like to review the history of the entire road.

The Needs Study which was started in 1964 and first presented to Council in June 1965 showed the need of a new east-west road between the Q.E.W. and Highway 5. This road would follow the Hydro tower line and utilize the right-of-way on Upper Middle Road and Blythe Road west of Highway 10. From Highway 10 to Etobicoke a new road allowance would be acquired. In the final report of the Needs Study adopted by Council in June 1967, this road was shown under the name of The Queensway. This road may be divided into 3 segments and we would like to report on each segment individually.

Etobicoke Boundary to Dixie Road

The Town of Mississauga, then the Township of Toronto completed a planning study of this portion in 1966. The bridge over the Etobicoke was to be a joint venture between themselves and the Township of Etobicoke and the road, a four lane divided highway built on a 120 foot road allowance was to be constructed by Toronto in the years 1966 and 1967. The County agreed in March 1966 to reimburse the Township for their portion of the cost estimated at $350,000. This was approved by the O.M.B. Due to a delay in starting this construction, either the County must assume this portion or draw up a new agreement in order to participate as the existing agreement has expired and also the cost will now be greater than that first estimated.

Highway 10 westerly to Winston Churchill Blvd.

In the Spring of 1968 the Town of Mississauga notified the County that certain work was required on the westerly segment of this section to service development in this area. As there was an existing road allowance or dedications throughout this total length the County agreed to assume this portion of the Queensway and to carry out the immediate requirements in 1968. An amount of $283,000.00 was included in the 1968 budget. This construction consists of a two lane road which is all that is required at this time. At the same time Council approved of a planning study of this section and also the continuance of the study to Dixie Road. This will complete the functional planning from boundary to boundary and will determine the class of road necessary to accommodate future traffic.

Highway 10 to Dixie Road

Throughout this section there is no existing road allowance. As mentioned in the previous section a planning study is now underway to determine the best alignment, the right-of-way required and the necessary design. It is in this section that the Town of Mississauga has requested permission to purchase certain portions of land as they become available in order to reserve the necessary road allowance. The price would be approved by the County and the County would then purchase that land incorporated in the right-of-way at such time as the road width was determined and assumed by the County. In all cases of divisions of land or rezonings, the required land would of course be taken as a dedication. The only parcels in question are those on which existing companies may want to expand their facilities and the only way to prevent this is for a Municipality to acquire the land. This method has been outlined to the Department of Highways and they have approved subsidy at such time as the County purchases the required land from the Town. The Town can of course dispose of any excess land in any way they see fit. It is difficult to say how much land will be involved as we do not know at this time how much land it will be necessary to acquire in this manner, or how much may be dedicated before the County assumes the road. The construction of the Queensway will presumably start at the eastern boundary and dependent on the funds made available by the County and the Department of Highways, construction in this area could be from 5 to 10 years in the future. However, it is our recommendation that the necessary steps be taken to reserve this right-of-way.

27. The Engineer's report with respect to using own forces to complete a Transportation Study in the County was considered and approved.

28. The Engineer's report re the updating of the agreement between the County and the Town of Mississauga for the construction of that part of the Queensway between the Etobicoke Boundary and Dixie Road, was considered and approved.

29. The Engineer informed the Committee that all the necessary information in regards to traffic signals at the intersection of Derry Road and Mississauga Road had been forwarded to the Department of Transport for their consideration.

30. We are in receipt of a request from the Township of Caledon to close a portion of River Street adjacent to County Road No. 11. The Engineer was instructed to refer this matter back to the Township of Caledon with the following recommendations.

(a) That a 17' strip adjacent to County Road 11 be deeded to the County upon the demolition of the existing building.

(b) No further improvements be made on this 17' strip until land is acquired by the County.

31. The First Canadian Urban Transportation Conference to be held in Toronto on February 9-12, 1969, was discussed and the Committee recommends the following:

(a) All members of Council be authorized to attend.

(b) A grant in the amount of $2,500.00 be authorized to be forwarded to the Conference.

32. We recommend the approval of the following land purchases:

Cornelio Cudini	$ 463.20
Robert A. Henderson	$1,321.50
Robert A. Henderson	$1,488.00
Alfred O'Brien	$ 459.90
Atlante and Natalina Rocca	$ 268.50
G. Tonon	$ 640.00
Robert L. McClure Estate	$1,047.80
Verna Flowers	$7,314.00

and that the Treasurer be authorized to pay the above settlements on demand subject to the approval of the County Solicitor.

*33. An offer by Mrs. Donaldson on Cawthra Road to sell her property to the County at $42,000.00 was refused. A counter offer of $35,000.00 by the County was approved.

34. The Land Appraiser was authorized to offer Lilmar Investments $45,000.00 for land required for the C.P.R. grade separation on Dixie Road.

35. An offer from Mr. Carberry on 17 Sideroad to purchase excess land adjacent to his property for $1,000.00 an acre was received. As the County had paid Mr. Carberry this rate for land expropriated, this offer was accepted and approved when road officially closed by by-law.

Emergency Measures Co-ordinator's Report

12 November, 1968

To: General Committee II, Council of the Corporation of the County of Peel
From: J. H. Adams, Emergency Measures Co-ordintaor

Re: Submission by the EMO Co-ordinators in Zone 3 to the Provincial and Federal EMO directors.

1. For the information of the Committee the following is the text of the submission drafted by the Co-ordinators and submitted to the Senior EMO Civil Servants of the Provincial and Federal Governments.

A STAFF PAPER ON MUNICIPAL E.M.O.

Introduction

The following paper has been produced from meetings held during October, 1968 of Co-ordinators in Zone 3, to provide information for consideration whilst EMO is being reviewed on a national basis.

1. Realizing fully that the Federal and Provincial Government's austerity programmes have had considerable impact on National Defence Budgets as well as on education and other vital programmes. It is a fact that it is the moral obligation and responsibility of all three Governments to provide funds for the safety of Canadian Citizens in National or Regional disasters.

2. There is a requirement for a clear statement of policy on Emergency Measures to be determined in both the House of Commons and the Provincial Legislature to establish the extent of the future development of civil defence under the Emergency Measures Oragnization.

3. Planning and training at a municipal level are necessarily closely inter-related. One cannot exist without the other. Key personnel in operational departments must be constantly trained in emergency plans and procedures.

4. Apart from the EMO training program we have a financial necessity to maintain the operational capabilities of a complete Emergency Fire Radio Network, a Police Emergency Radio network, in some communities, and our own EMO Network, which must function in real emergency. All these programmes were specifically approved by the Federal Government and monies provided for them. Maintenance of these facilities would seem an equal Federal responsibility together with a Volunteer and Municipal employee training program. All these would be of inestimable value in disaster situations.

5. A most pressing need for re-examination of allocation of EMO funds is overdue at the Federal level. While limited expenditures are being made in the F.A.P. programme at the local level, considerably larger amounts are being spent on long range surveys, such as that being conducted by the Public Works Department. If the whole programme is not to wither on the vine, money must be provided at the local level. The long range programmes will assuredly die if the local programmes collapse.

6. A review should be made of the five million dollar allocation per annum to the Department of National Defence for "EMO purposes". This

item alone could help stimulate the F.A.P. programme at municipal level.

7. There is a need for National T.V. and Radio support to a Public Information Programme emphasizing to the public what EMO is designed to accomplish and how funds are necessary to provide for civilian protection should the need arise.

8. Joint exercises involving all levels of government should be encouraged to demonstrate the capability of EMO.

9. The shelter programme should be given higher priority and implemented, otherwise the efficiency of the EMO programme is seriously affected.

10. There is strong local support to reinstitute the programme for subsidies to the purchase of fire pumpers.

11. Federal and Provincial Legislation has been promulgated delineating the responsibilities of the senior governments and assigning certain responsibilities to the Municipal Government. Obviously this legislation is not workable without adequate funds.

12. If adequate funds are not appropriated it will be impossible for the responsible municipal official to fulfil his designated role to accept his legal responsibility to Council.

The above are facts on which the Municipal Co-ordinators who affix their signatures hereto were in unanimous agreement although many had put forward other strong arguments which were not generally applicable and were, therefore, not included in the above.

October 10, 1968.

The original document was signed by the Co-ordinators of the following Municipalities.

Metropolitan Toronto
Oshawa and Ontario County
York County
Simcoe County
Dufferin County
Grey County
Bruce County
Peel County

A subsequent development to the existing critical financial situation reveals that the Provincial Government is reducing their E.M.O. training staff of ten persons to nil effective 31st March, 1968. It is understood that this reduction has been necessitated by a probable 25% reduction in the Federal Emergency Measures appropriation to Ontario for the forthcoming fiscal year commencing 1st April 1969.

It is my understanding that the Federal and Provincial appropriation to the County for the next fiscal year will permit of our operating on approximately the same scale as for the current fiscal year.

J. H. Adams, Co-ordinator, Peel County EMO.

5. **Property**—Sub-Chairman—Archdekin

(a) We are in receipt of a Grand Jury Report dated October 7, 1968. We recommend that this report be received.

(b) We are in receipt of a letter from the County of Peel Law Association stating that they had collected approximately $4,000.00, and propose to commission a sculpture to be placed in a suitable place on the grounds of the Court House. We recommend that this letter be received and that the Clerk be instructed to inform the County of Peel Law Association that permission to place the proposed sculpture on the grounds at the new Court House must be obtained from Peel County Council.

(c) We recommend that a proposal from the Department of Public Works to take over the Court House and Site, with the Department of Public Works assuming the existing debenture debt on the Site, Watermain, Sewer and Court House Construction as of January 1, 1968, be approved.

Clause 5 (c) was deferred for further negotiations.

We recommend approval of this resolution.

(d) We recommend that the Petty Cash Fund be increased from $175.00 to $550.00. (Included in the $550.00 will be $250.00 previously authorized for Home Residents Account.)

McCormick, Rankin & Associates Limited,
Consulting Engineers,
8 Stavebank Road, Port Credit, Ontario.
Attention: Mr. G. A. Rankin

Dear Sir:

The Road Committee of the Council of the County of Peel requires the services of a qualified consulting engineer to assist in updating the 1964 Needs Study data of the county road system for the 1970-1974 programming period and in carrying out a detailed study of the needs for the second five year period, 1975-1979; the estimation of revenues that will be available to meet those needs; the development of a method to direct anticipated revenues to the areas of greatest need; and the preparation of a formal report to County Council summarizing the findings of these studies.

The consulting engineer shall be required to work under the immediate supervision of a co-ordinating committee.

The work shall be divided into five major phases as follows:

(1) traffic counting,
(2) classification and inventory of the present and desirable county road systems and estimation of construction needs,
(3) estimates of probable maintenance, machinery replacement costs and administration costs, a review of the organization of the county road department, and a review of regulatory by-laws and policies which effect the county road system,
(4) estimates of future revenues, and
(5) preparation of a report on the foregoing.

GENERAL DESCRIPTION OF THE PHASES

Phase 1, Traffic counting

Routine traffic counting shall be done by the Department of Highways, Ontario and estimates of the Annual Average Daily Traffic (A.A.D.T.) will be provided.

The consultant shall review the adequacy of the routine counts and shall make recommendations to the co-ordinating committee regarding the necessity of obtaining supplementary counts on roads carrying high seasonal volumes and on roads in urban areas.

The consulting engineer shall review all data collected during the 1967 Brampton Area Transportation Study, the Toronto Area Highway Planning Study — Western Section and the Toronto Area Highway Planning Study — Northern and Eastern Section, to identify existing information which can be utilized to forecast future traffic volumes on the county road system.

Your submission shall indicate pertinent data (e.g. O.D. information, land use forecasts, etc.) which will be considered and shall also include your proposal for the analysis and subsequent application of the resuts of this analysis to the problem of forecasting future traffic volumes.

The use of computer techniques for data analysis will not be required.

Phase 2, Inventory of the Present and Proposed Systems and Estimates of Construction Costs

The inventory and construction estimates shall be prepared according to procedures prepared by the Department of Highways, Ontario. Where necessary unit costs will be supplied by the county engineer.

Phase 3, Estimates of Probable Future Maintenance, Overhead and Machinery Replacement Costs

These estimates shall be prepared in accordance with procedures developed by the Department of Highways, Ontario and with the assistance and advice of the county engineer and the co-ordinating committee.

Phase 4, Estimates of Future Revenues

These estimates shall be prepared in accordance with procedures developed by the Department of Highways, Ontario. Where necessary assistance will be given by the co-ordinating committee.

Phase 5, Preparation of the Report

A report shall be prepared by the consulting engineer in accordance with an outline prepared by the co-ordinating committee and the Department of Highways, Ontario.

GENERAL

The consulting engineer shall provide staff acceptable to the Co-ordinating Committee, office accommodation, equipment, material and transportation when necessary, and he shall supervise the printing of the report. The cost of printing the report will be a charge to the County of Peel and shall not be included in the consulting engineer's fees.

The Co-ordinating Committee will provide the consulting engineer with work sheets, procedure manuals and other necessary items and data.

All originals of papers, work sheets and forms shall become the property of the County of Peel and shall be given to the Co-ordinating Committee on the completion of the report.

METHOD OF PAYMENT

The consulting engineer's fee shall be based on the following:

(1) the actual cost of direct salaries of permanent staff, plus 100%, and the actual cost of direct salaries of temporary staff plus 50%, and

(2) disbursements for staff expenses properly incurred in the performance of the work.

However, the fee shall be limited by an upset figure above which no further payments shall be made. Direct salaries shall include such fringe benefits as may be paid by the consulting engineer to his staff and may consist of,

(1) payment for statutory holidays,
(2) workmen's compensation insurance,
(3) vacations with pay,
(4) unemployment insurance,
(5) health and medical insurance,
(6) group life insurance,
(7) approved pension plan, and
(8) sick leave allowance.

Such fringe benefits shall exclude any bonus or profit sharing system. Payments will be made monthly.

If, during the course of the study, the Co-ordinating Committee alters these terms of reference, the upset limit may be re-negotiated.

ELABORATION OF PHASES 2, 3, 4 and 5

Phase 2, Inventory of the Present and Desirable Systems and Estimates of Construction Costs

The existing county road system of the County of Peel consists of 185 miles of road. In addition, the county wishes to obtain information on some 100 miles of road now under local jurisdiction which the county feel could possibly meet the criteria for desirable county roads. On this total mileage are located 95 bridges, and a further 24 bridges under county supervision are located on various local roads within the county.

Before the inventory is carried out the consultant shall identify a desirable county road system by application of the criteria for county roads in both rural and urban areas.

Appraisal sheets covering the present road system, county connecting links, the desirable county roads not in the present system and each bridge under or proposed for county jurisdiction located on the present or desirable county road system or on a local road within a county, shall be completed according to instructions in the manual supplied. This appraisal requires that each section of road be driven over at least three times and each bridge be examined at least once. The appraisal of STRUCTURAL ADEQUACY shall be carried out in the spring of 1969.

Estimates of construction costs shall not require the measurement of quantities. The county engineer will supply unit costs of various work items as a basis for estimating future costs. Construction costs are to be estimated in the field so that special conditions which will effect the cost of construction may be allowed for.

Phase 3, Estimates of Probable Maintenance, Overhead, and Machinery Replacement Costs

Future maintenance costs shall be estimated for past expenditures, local knowledge of the adequacy of past maintenance standards and of the present and probable future maintenance demands. The estimates shall be compiled from estimates of desirable expenditures per mile.

Estimates of future overhead costs shall be based on the projection of the historical record, as modified, where necessary, by the judgement of the Co-ordinating Committee. Such judgement will consider necessary expansion of the operation of the county's road department and increased costs, if any, due to increased construction and maintenance expenditures.

Machinery replacement costs shall be based on estimates of useful life of the various machines owned by the county, and the current prices for replacement. Increases in the volume of construction, or the standards of maintenance, and local knowledge of the capabilities of the present equipment shall be the basis upon which the need for additional equipment shall be made.

Estimates shall be made in accordance with procedures laid down in a manual supplied by the Department of Highways, Ontario.

Phase 4, Estimates of Future Revenue

The estimate of future county assessments will be compiled from estimates of the future population of the municipalities in the county that contribute to the county road system multiplied by the current assessment per person values.

The municipalities to be considered are:

Towns:

Mississauga
Brampton
Streetsville
Port Credit

Villages:

Bolton
Caledon East

Townships:

Chinguacousy
Albion
Caledon
Toronto Gore

The Department of Highways, Ontario will supply a guide for preparing these estimates.

Phase 5, Preparation of the Report

The finding of the Committee shall be compiled in a report prepared by the consulting engineer, which shall conform to a format prepared by the Co-ordinating Committee and the Department of Highways, Ontario.

The report shall include:

(1) the background and purpose of the report,
(2) the methods used in the study,

(3) desirable revisions to the county road system, and the timing of these,

(4) future maintenance, overhead and machinery replacement costs,

(5) organization of the county road department,

(6) anticipated future assessments of the county,

(7) dollar value and priority of needed work, by time periods,

(8) a financial plan of action,

(9) recommendations respecting regulatory by-laws and policies, and other special problems identified during the course of the study, and

(10) methods of keeping the study data under review.

The following information shall be shown on maps, drawings or charts, or in tables:

(1) the present county road system with proposed revisions showing classification,

(2) the road inventory section numbers, traffic counter-stations, present A.A.D.T.'s and the priority ratings,

(3) bridge inventory numbers, present safe load, estimated life and priority ratings,

(4) past and future assessments of the county,

(5) tables of fixed costs and construction needs by time periods,

(6) a machinery replacement schedule,

(7) total needs by time periods, and available funds at various mill rates,

(8) available construction funds at the selected mill rate, and

(9) other tables, maps, charts, graphs and diagrams as the co-ordinating committee may direct.

It should be noted that two items of policy will have to be decided by County Council. These are the desirable changes to the county road system, and the desirable level of the county mill rate for roads. The latter item should not be referred to Council until early in 1970 at which time an effective mill rate for the 1970-74 programming period can be calculated.. These decisions may require some time and the consulting engineer should make due allowance for this.

A considerable amount of the data necessary to complete Phase 2, 3 and 4 was tabulated for the 1964 study and these data are available to the consultant. Consideration should be given to this when preparing the proposal.

All appraisal sheets, other needs data and estimates of future assessments shall be submitted to the Department of Highways, Ontario for tabulation and analysis **not later than June 30, 1969.**

If you are prepared to undertake this work, please submit three (3) copies of your proposal to—

The Chairman,
Co-ordinating Committee,
County of Peel,
c/o R. W. Knight, P. Eng.,
County Engineer,
3 Wellington Street East,
Brampton, Ontario.

Your submission should cover the following points:

(1) the qualifications of your firm as they relate to the recommendations of the Department of Highways, Ontario, appended hereto,

(2) the names of persons **on your staff** and available for the study and their qualifications (and their direct salary as of the date of your proposal),

(3) the names of persons you propose to engage for the study, and their qualifications (and proposed salary),

(4) the upset limit you propose,

(5) conditions under which the upset limit shall be re-negotiated,

(6) your estimate of the cost and the approximate man-hours to complete each of the various study phases, and

(7) other points you deem worthy of mention.

Yours truly,
R. W. Knight, P. Eng.,
County Engineer.

Schedule "A" Part II
July 9, 1968

The Chairman,
Co-ordinating Committee,
County of Peel,
c/o Mr. R. W. Knight, P. Eng.,
County Engineer,
3 Wellington St., East,
Brampton, Ontario.

Dear Sir:

We are pleased to have the opportunity of submitting this proposal for our firm to assist in updating the 1964 Needs Study data of the county road system for the 1970-1974 programming period and in carrying out a detailed study of the needs for the second five-year period, 1975-1979; the estimation of revenues that will be available to meet those needs; the development of a method to direct anticipated revenues to the areas of greatest need; and to assist in the preparation of a formal report to County Council summarizing the findings of these studies. The foregoing will be based on the Department's procedures and their Methods Manual, Volume I, County Roads Needs Study, 1969.

This firm carried out a number of the Needs Studies that commenced in 1964 and has, in addition, completed two Township Road Programming Studies. As you probably know, we assisted the County staff on certain phases of the previous study.

Our firm has had the opportunity and experience of working for the County on planning studies and engineering projects, which have to some extent, made us familiar with the County road system and the personnel of the Engineering Department.

When undertaking a study, we employ the skills of various specialists within the firm and, if engaged, the study staff would be supervised by Mr. Robert Blay, P. Eng., an experienced traffic and studies engineer. Mr. Blay is an associate member of this firm and is presently Secretary-Treasurer of the Canadian Section of the Institute of Traffic Engineers. He has conducted or participated in ten similar studies, plus numerous planning and traffic studies. The assistant study engineer would be Mr. Robert Pearson, P. Eng., who has been with this firm since his graduation six years ago. Mr. Pearson is an experienced road and highway engineer and his background is particularly suited to a study such as this.

We realize that an important part of the study will be a review of all the available transportation data in order to gather information on forecasts of future traffic volumes and, on this phase of the work, we propose placing our Mr. K. C. Wong, P. Eng., in addition to Messrs. Blay and Pearson. During the past two years Mr. Wong has worked continuously on traffic network systems, gravity models, and general transportation studies. Presently, he is engaged on traffic forecasts in conjunction with our planning study on the Queensway Extension.

As described in Mr. Knight's letter of June 28th, the study has again been divided into five major phases:

(1) Traffic Counting — routine counts will be done by the Department, although there may be a need for supplementary counts. In the urban areas some of this information is available and this would be reviewed and a recommendation made to the Committee.
(2) Inventory of the Present and Proposed Systems and Estimates of Construction Costs.
(3) Estimates of Probable Future Maintenance, Overhead and Machinery Replacement Costs.
(4) Estimates of Future Revenues.
(5) Preparation of the Report.

The five foregoing phases break the study into the same format as the previous road needs study and, for all intents and purpose, is an up-dating of the material collected previously. With this in mind, we anticipate that a good percentage of the work done before can be salvaged and utilized in the proposed study.

We gather from the terms of reference that more emphasis will be placed on the traffic aspect of the urban roadways to be included in the study system and our proposal takes this feature into consideration.

Our estimated fee for carrying out the functions of the consulting engineer, stipulated in Mr. Knight's letter, is shown on the attached schedule. This estimate is based on an existing road system of 185 miles, plus 100 miles under local jurisdiction. It is also premised on 119 bridges of which 95 are located on County Roads.

The following is a list of the personnel we would employ on the study, and their direct invoicing rate.

Personnel	**Function**	**Direct Salary Rate**
E. D. McCormick and G. A. Rankin	Principal Engineers, study direction and supervision	$9.78
J. F. Beatson	Design Supervisor, estimating	7.52
D. R. Blay	Study Engineer responsible for all phases	7.23
L. H. Ho	Bridge Design Engineer, bridge inventory and estimating	6.60
K. C. Wong	Traffic Engineer, land use and traffic forecasts	4.22
R. Pearson	Assistant Study Engineer	6.07
S. Venier	Draftsman	4.42
F. Partington	Draftsman	3.70
R. Dekiel	Study Technician	2.77
Mrs. M. Vesik	Clerical	3.01

Note: In the last four functions our staff would be interchangeable;

Of interest to the Committee may be our association with Simpson and Curtin of Philadelphia. In 1964, we established a working relationship with this firm to assist us with complex transportation problems and their services are readily available to us if needed. Simpson and Curtin are a large well known firm in this field and are experts in Road Need Studies on which they are engaged continuously.

The foregoing constitutes our proposal and, the upset limit, as indicated on the schedule, is $39,517.40. Any appreciable change in road mileage or change in the terms of reference, described in the Department's Methods Manual, dated 1969, would in all likelihood, require a re-negotiation of the upset limit.

If our firm is engaged for this study, we are confident that the work would be carried out to your complete satisfaction.

Thank you for the opportunity of submitting this proposal.

Yours truly,
McCORMICK, RANKIN & ASSOCIATES LIMITED
G. A. Rankin, P. Eng.
